Helping Colorado Return To Work Safely.

Purchase PPE and other supplies for your business, nonprofit, or healthcare institution

The PPE marketplace was created by **Energize Colorado, a nonprofit**, with the intention to provide critical supplies to rural hospitals, healthcare institutions, medical practices, businesses, and non-profits and enable them to serve their patients, employees, and customers in a safe manner. The goal is to ensure that Coloradans are able to return to work and are protected in their place of employment. This marketplace is limited to Colorado institutions and re-sellers may not purchase. The vendors to the marketplace go through a thorough vetting process to ensure that only quality product is available. We are committed to keeping prices as low as possible.

Get PPE and Supplies
