

Limit Solicitation Document

The NoCo Manufacturing Partnership would like to ask our service providers to respect that this day is a day for our manufacturing community to come together in a collaborative environment to support one another. **Please consider purchasing an exhibitor booth to showcase your services or utilize your judgement in networking and leveraging your services at this event at www.nocomfg.com/nocom.**

We couldn't do business day to day without all of you, but kindly request that we honor the mutual manufacturing collaborative environment that today represents. Thank you in advance for your cooperation.

Any specific questions regarding this can be sent to the NOCOM Event Chair.
