### **About [Northern Colorado Manufacturing Partnership](#)**

The NoCo Manufacturing Partnership was formed in 2013 as a result of Governor Hickenlooper's state Economic Development plan called the Colorado Blue Print. The Blue Print identified 11 key sectors of the economy in Colorado by region. Northern Colorado's two main sectors identified were Health and Wellness and Advanced Manufacturing. Regions within the state were encouraged to form sector partnerships to provide more localized grass roots support to augment state efforts in each sector. These would be industry specific, led by business, in partnership with economic development, education and workforce development. A collaboration arose as part of the Blue Print process involving people from each of these affiliations and the NoCo Manufacturing Partnership was born. It continues to be an all-volunteer, business led, FREE membership organization designed to support Northern Colorado manufacturers. It is served by a Board of Directors, representing each affiliation from private business to local government, as well as two active committees: Networking and Manufacturing Workforce.
